------------------------------------	---------

Service Maintenance Agreement	\$35.00
-------------------------------	---------

Full Maintenance Agreement Option

Full Maintenance Agreement extends the warranty for as long as you continue to pay the maintenance fee. It includes all the parts, labor and batteries (excluding Acts of Nature). It also includes the service call and labor needed to complete the service. There are no trip fees or gas surcharges added.

If you choose to add this, it will provide you with a constant line item budget for repairs on the systems covered. This will prevent surprise service charges that were not planned for.

System Maintenance Option is available

In order to clarify our respective responsibility, please familiarize yourself with these considerations:

- Your system requires power to operate, so you will need to provide Vector Security access to 120V AC receptacles.
- Pricing for special installation conditions can be quoted upon a complete understanding of your specific needs.
- Any permits, drawings or blueprints, fees or changes required by any authorities having jurisdiction will be additional
- If a lift is needed there will be an additional charge to rent – expected \$600-\$800 per week

SUPPORT SERVICES

The installation of the equipment we have detailed is complemented with the following support services:

- One year limited warranty on parts and labor
- Project management throughout the installation
- Submittal of permits, where applicable
- Field management of installation personnel
- User training – at system completion and ongoing as needed
- 24 x 7 x 365 service support
